ROVOS RAIL THE PRIDE OF AFRICA

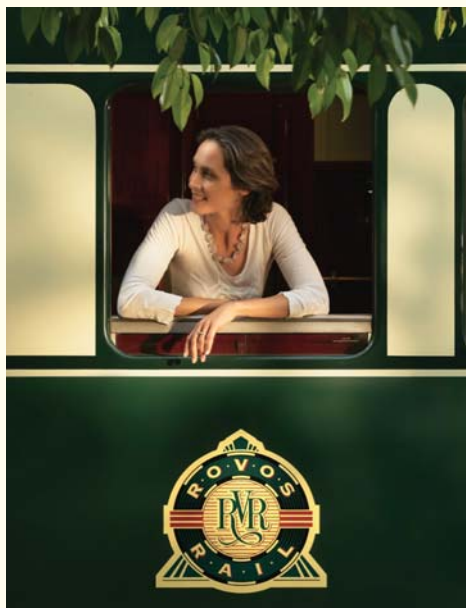

FIRST CLASS TRAVEL

STEP ABOARD THE PRIDE OF AFRICA, THE WORLD'S MOST LUXURIOUS TRAIN,
AND BEGIN A JOURNEY TO SOUTHERN AFRICA'S MOST SPECTACULAR DESTINATIONS

Since its establishment in 1989, Rovos Rail has earned an international reputation for its truly world-class travel experiences. Step aboard the wood-panelled coaches – classics remodelled and refurbished to mint condition – and enjoy fine cuisine in five-star luxury as some of the most varied scenery imaginable unfolds beyond the windows. Recapture the romance and atmosphere of a bygone era when privileged travellers experienced the magic and mystery of Africa in a relaxed and elegant fashion. In a series of train journeys lasting from 48 hours to a month, the Pride of Africa links some of Africa's greatest destinations from Cape Town at the tip of Africa to Dar es Salaam in Tanzania, from scenic splendours as diverse as the game reserves of Mpumalanga to the Victoria Falls, from the desert landscapes in Namibia and the stark beauty of the Karoo to the lush cane fields of KwaZulu-Natal and the magnificent Garden Route along the Cape south coast. The trains – which may be hauled by steam, diesel or electric locomotives at various stages of the journey – carry a maximum of 72 passengers in 36 superbly appointed suites. Pride of place in the Rovos stable goes to the historic and restored station and locomotive yard, which is the heart and headquarters of this private railway company.

CAPE TOWN JOURNEY

DISCOVER INFINITE VARIETY FROM THE MOUNTAINS,
BUSHVELD AND GRASSLAND PLAINS TO THE BUSTLING
URBAN HEART OF SOUTH AFRICA'S CITIES

For many visitors to South Africa, there is no finer way to see the country than on the popular 51-hour weekly journeys between Pretoria and Cape Town. This 1 600-kilometre meander is a perfect illustration of South Africa as a world in one country. Travel the grasslands of the gold-rich Highveld to the haunting barrenness of the Great Karoo; trundle through the spectacular mountain ranges and scenic winelands of the Cape. Journey's end is Cape Town, the Mother City of South Africa, cradled by the imposing bulk of Table Mountain, Devil's Peak and Lion's Head. Highlights of the north- and southbound routes include a visit to the historic village of Matjiesfontein; this authentic perfectly preserved Victorian Village, which was founded by Mr Logan as a refreshment stop in 1890, also boasts an impressive museum on the platform. Another stop is made in Kimberley providing an opportunity to enjoy a city tour and a visit to the Diamond Mine Museum and the world's largest man-made excavation, the Big Hole.

A short visit to Keetmanshoop offers another opportunity for a walking tour as we visit this small but important sheep-farming town. The train continues across the Kalahari Desert to Namibia's capital, Windhoek – a lively, cosmopolitan city with a strong German flavour. A highlight is the 24-hour excursion to the world-famous Sossusvlei, a stunning pan in the Namib Desert surrounded by massive red sand dunes. After a night's stay at Sossusvlei, guests rejoin the train in Windhoek and continue overnight to Tsumeb and the Etosha National Park. A night is spent at the Mokuti Game Lodge on the eastern edge of the game-rich park. The journey then continues on to Swakopmund, a perfectly preserved 19th-century German Hansa town set between the dunes of the Namib desert and the roaring Atlantic Ocean – an unforgettable end to a remarkable journey.

UNIQUE TRAIN SAFARIS FOR CHARTER, PRIVATE FUNCTIONS AND CORPORATE TOURS

The newly rebuilt Rovos Rail Events Train is an ideal venue for corporate clients to stage conferences, incentives or product launches. The train accommodates up to 250 guests and is only suitable for daytime journeys. Limited only by time and distance, there are many alternative uses for the train, which include a three-hour circular trip around Pretoria or a one-way journey to any destination within eight hours' rail travel time from Pretoria. Depending on the number of guests, the Events Train can host, with full-bar facilities, a five-course sit-down dinner for up to 96 guests, a three-course sit-down meal for up to 192 guests in two sittings or, for 250 guests, hot snacks, canapés and cocktails served for the duration of the journey. There are also many permutations using Rovos Rail's 44-bed or 72-bed train. From our headquarters in Pretoria, successful overnight trips from one to 10 days have been undertaken with incentive groups, historical tours, private family gatherings and bird shoots. Within reason, and subject to availability, the chartered train can go wherever there is a railway line in Southern Africa.

LIFE ON BOARD

LIFE ON BOARD IS SIMPLE, ELEGANT AND ENTERTAINING

An enthusiastic team of chefs is responsible for overseeing the very important task of ensuring guests' every need is catered for. There's an accent on fresh local ingredients and traditional dishes such as game are a specialty. Every morning there is a full breakfast with dishes cooked to order. Lunch and dinner are complemented by a selection of excellent South African wines and cheeses and are served in one sitting only in the charming Victorian atmosphere of the dining cars. Many of the passengers aboard enjoy the formality of fine china, crisp linen and silver, and dress accordingly. During the day dress is more casual with cool, comfortable clothes and hats recommended for the excursions, especially in the game reserves where it can get very hot. The Observation Car seats 32 passengers and is positioned at the rear of the train, while at the centre of the train we have, when numbers dictate, a non-smoking Lounge Car that seats 26 passengers in comfort. A smoking Club Lounge is placed next to the Observation Car and seats 11. Maintaining the spirit of travel of a bygone era, there are no radios or television sets on board.

SEVEN SUPERBLY RECONDITIONED LOCOMOTIVES ARE
THE SOUL OF ROVOS RAIL AND A SIGHT TO GLADDEN
THE HEART OF ANY RAIL ENTHUSIAST

There's a story behind the acquisition and restoration of every one of the Rovos Rail locomotives. Each one has a distinctive character and charm and are all named after owners Rohan and Anthea Vos' family. The oldest engine in the stable is also the smallest: 439 TIFFANY – named after their youngest daughter – is one of 40 Class 6 locomotives manufactured by Dubs & Co in 1893. Rohan Vos first saw this petite locomotive on the platform of Winburg Station in the eastern Free State and it was love at first sight. It was purchased in 1987 and Dunns Locomotive in Witbank was commissioned to return the Class 6 to running condition. 2701 BRENDA, 2702 BIANCA and 3360 SHAUN are named after Rohan and Anthea's other three children. They are Class 19D locomotives, which were all built during the 1930s. All three locomotives were saved from scrap-metal dealers and, after extensive restoration by Dunns Locomotive and the Rovos staff, were put back into service in 1989. Loco 3484 MARJORIE – named after Rohan's mother – is a Class 25NC locomotive built in 1954 by North British in Glasgow. Due to the difficulties in running steam locomotives over long distances in South Africa, the decision was made to convert this locomotive from a coal- to an oil-fired engine. She can cover a distance of 200 kilometres without needing to stop for oil or water, whereas the coal-fired locomotives need to stop for water every 80 kilometres. A highlight of the official opening of the new Capital Park Station on 7 May 1999 was the christening ceremony performed by Mrs Marjorie Vos, launching this magnificent locomotive into service. A further two Class 25NC locomotives have been restored and added to the fleet: 3442 ANTHEA, built in 1953 by Henschel of Germany, is named after Rohan's wife; 3533 KING ZOG is named after Rohan's Dalmatian.

ROVOS RAIL STATION

THE REBUILT 60-ACRE PROPERTY IS NOW A GRACIOUS COLONIAL-STYLE
RAILWAY STATION, HOME AND HEADQUARTERS FOR ROVOS RAIL

For Rovos Rail passengers, a highlight of their journey is a visit to the private station at Capital Park, Pretoria. The once bustling hub of steam locomotion in the old Transvaal is now the headquarters for Rovos Rail. The gracious colonial-style railway station serves as the new departure or arrival point for all train journeys. The property boasts a small railway museum in addition to its other comprehensive facilities and will, with the addition of semaphore signals and a footbridge, recreate the atmosphere of a fully fledged railway system. It is intended that, with time, this facility should become the foremost working train museum in the world. The eyes of rail enthusiasts will be drawn to the vast carriage and locomotive sheds where teams of dedicated personnel keep the rolling stock in perfect order. This roofed workshop of 10 000 sq metres straddles 15 railway lines with concrete inspection pits below, and is the ultimate repair and maintenance facility for any train operation. The low, red-bricked buildings alongside the new 300-metre platform house laundries, gleaming stainless-steel kitchens and well-stocked storerooms. This is the busy hub of a provisioning operation, which rivals that of a world-class hotel in terms of efficiency and attention to detail.

CAPITAL PARK STATION PRETORIA – 60 ACRES – ROVOS RAIL HEADQUARTERS

Steam

Officially opened in 1943, Capital Park, with its locomotive sheds and marshalling yard, played a vital roll in the rail network around Pretoria before falling into disuse. Technology and time moved on and over the years newer forms of railway locomotion replaced the old and faithful steam engines, which had served so well since the industrial revolution. With the arrival of electric and diesel engines, the steam locomotive sheds at Capital Park experienced a steady decline.

Use of steam has become increasingly difficult over the past years, as more and more water and coaling facilities have been scrapped. Where facilities no longer exist, diesel or electric locomotives will be used. Rovos Rail will, however, endeavour to ensure that arrivals and departures in Pretoria are steam hauled.

On 25 April 2001, an occurrence of note was recorded at Rovos Rail's yard when for the first time in South African Railway's history a private train with a private locomotive was driven and fired by its own private crew.

Thank You

On the occasion of our 10th anniversary I wrote: 'At 40 I was well off. At 53 I'm broke. But boy, have I got a great train set!' Ten years later nothing much has changed.

The fact that Rovos Rail is in existence today is attributable to many factors, but none so important as the input from friends and family who have unselfishly given their time, advice and financial assistance. I will not forget. Total belief in one's own capabilities is one thing, but belief in someone else's dreams is a completely different matter.

Thank you Anthea and the family for your dedication and unwavering support. To our agents far and wide without whom we would not have achieved this goal, to our staff who have loyally sweated the years away, and to our wonderful guests who have supported this project – a great thank you!

ST JAMES MANOR

THE ST JAMES GUESTHOUSES

THE ST JAMES MANOR AND ST JAMES SEAFORTH –
TWO FIVE STAR SEASIDE RETREATS OVERLOOKING
THE TRENDY AND VIBRANT FISHING VILLAGE OF
KALK BAY WITH MAJESTIC VIEWS ACROSS
FALSE BAY AND THE INDIAN OCEAN

St James, historically known as 'millionaire's mile' is making its comeback as one of the trendiest places to stay in Cape Town. The area still boasts the traditional colourful Victorian bathing boxes and grand old houses. Fresh fish can be brought from the local fishermen and the harbour itself offers excellent seafood restaurants from rustic local cuisine to fine-dining experiences. Mediterranean in style, the main road is a hive of novel antique shops, delis, boutiques and art galleries a mere ten-minute walk from the guesthouses. Across the road you will find the famous tidal pools and swimming beaches; a favourite pastime is the early morning swim in the warm waters of St James. The area also offers interesting walks along the historic promenade and up the imposing mountains. Perhaps the biggest attraction is the land based whale watching in season; they appear literally meters from the shoreline and can be seen clearly from the guesthouses.

Built a hundred years ago, the St James Manor has an aura of grandeur and old world charm. A magnificent staircase leads up to the six large suites, individually decorated to reflect the opulent times of a bygone era. And carved into the mountain is a private and wind protected swimming pool and tanning deck with views across False Bay.

St James Seaforth was originally built in 1877 and destroyed by fire in 1939. It was rebuilt in its current position in 1940 with extensive views over the bay. The house has now been refurbished to create a contemporary guesthouse with a casual but elegant atmosphere in keeping with its seaside village location. The three upstairs en-suite bedrooms are engaging and stylish as are the spacious downstairs facilities.

Breakfasts are a speciality offering a wide choice of interesting fare and are inclusive, as are all beverages. Dinners and lunches are available by arrangement.
